

B2B Core Service Pricing Structure

Flexible hybrid licensing models maximizing ROI across structured data, support operations, and content generation.

1. Content Engine & 3. AI Support Bots (Hybrid SaaS + Metered)

PLAN TIER	PRICING	VOLUME ALLOCATION	INCLUDED CAPABILITIES
Starter / Sandbox Subscription	\$49 / mo	• 10,000 Text Generations • 500 Support Bot Queries	Standard open-source foundational models, public knowledge base setup, web widget integration, community support.
Professional Subscription	\$299 / mo	• 100,000 Text Generations • 5,000 Support Bot Queries	Fine-tuned brand voice (zero copyright data assets), vector database for private docs, Slack/Teams omnichannel sync, next-day support.
Growth (Metered Over) Consumption	+\$15 / unit +\$30 / unit	• Per 10,000 extra text gens • Per 1,000 extra bot queries	Automatic scale-up thresholds. Prevents hard service shut-offs when demand spikes. Billed dynamically at the close of monthly cycle.

2. Data-as-a-Service (DaaS) (Pipeline-Based Metered)

PLAN TIER	PRICING	VOLUME ALLOCATION	INCLUDED CAPABILITIES
Essential Data Subscription	\$199 / mo	Up to 50,000 rows scraped / mo (Max 3 target websites)	Weekly automated scheduling, extraction of clean public records/e-commerce data, basic CSV/JSON deliveries.
Predictive Insights Subscription	\$599 / mo	Up to 250,000 rows scraped / mo (Unlimited target sites)	Daily real-time pipelines, AI-driven dynamic analytics dashboards , competitor pricing shift alerts, monthly consulting report.
Enterprise Scrape Consumption	\$10 / 10k rows	On-demand high volume scaling	Custom proxy rotation infrastructure, continuous scraping bypassing anti-bot measures, structured visual database integration.

4. UI/UX Prototyping & Strategic Customization (On-Demand & Enterprise)

LICENSE / PLAN	PRICING	DELIVERABLES	STRATEGIC ADVANTAGES
Rapid Wireframe Pack	\$150 / request	Live editable Figma/ FigJam links	Prompt-to-prototype generation. Concept design deliverable ready for instant presentation to early investors and internal stakeholders. Turnaround < 24 hours.
White-Label License Enterprise	Custom Contract (Annual commits)	Rebrandable workflow deployments	Complete code-base wrapper. Package our AI content engines, support agents, and scrapers under your own corporate identity to resell directly to your client portfolio.

Infrastructure Transparency Note

All Dogbro LLC core products rely heavily on a modular, privacy-focused open-source core stack. Because we bypass high closed-ecosystem API license premiums (e.g., direct OpenAI dependency) by fine-tuning open-source Large Language Models, we pass up to 80% infrastructure cost savings over to your margin profile.
